## ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Constantinople, 1st.

Conference has not been held yet. Meanwhile Turkey is pushing her war preparations as forward as possible, especially on the Balkan side.

Belgrade, 1st.

Servian Government has ordered concentration of all available troops on the frontier; greatest animation in military circles.

Paris, 2nd.

Electoral agitation at its highest. Editorial polemics all over the country.

Rome, 2nd.

Francis II., ex-King of Naples, is seriously ill; his life is despaired of.

Vienna, 2nd.

The arming going on all over the East is causing great uneasiness in the European political world. All the public funds are affected by this state of affairs.

## PRESS TELEGRAMS.

Paris 29th—The *Republique Française* states that the peace of the continent of Europe necessitates the amalgamation of Bulgaria and Roumelia. A prolongation of the present state of affairs would entail the ruin of European Turkey.

London 30th—The Ambassadors of the several powers in Constantinople will assemble on Monday to discuss the Roumelian question. The representatives of Servia, Roumania and Greece will take part in the discussion.

The Roumelian Minister for Foreign Affairs has asked the powers to recognise the statement made by Prince Alexander of Bulgaria with reference to the Roumelian question.

Philippopolis 30th—All able-bodied men from 18 to 32 years of age have been called out, and will form part of the army. Special watchmen have been appointed to watch the streets of the city at night.

Prince Alexander has sent Jeavakoff Hodgipetroff to Contantinople to assure the Sultan that order and peace will be maintained in Roumelia.

Constantinople 30th—The operations of the Ottoman Bank continue their normal course.

Calcutta 29th—Great inundations have taken place in the Bengal Presidency, the waters covering an extent of 3,500 square miles. Immense losses are reported in life and property. The authorities have done all in their power to succour the victims.

Palermo 30th—Yesterday 159 fresh and 81 fatal cases occurred in this city.

London 30th—Lord Dufferin telegraphs that an armed force must be sent to Burmah. The viceroy has telegraphed to the Governor of British Burmah to send a formal protest to King Thaban, with reference to the proceedings of the Burmah Commercial Company.

Lord Dufferin's despatches lead to the supposition that Burmah will be shortly annexed.

On the other hand, the Burmah representative in Paris states that his mission is to draw up a treaty of commerce with France, and then place every obstacle in the way of an annexation by India.

Paris, 30th—Advices from Hanoi, capital of Tonkin, state that the Black Flags have surrounded the Province of Brendinio.

A Chinese General, at the head of a considerable number of the Celestial troops, has invaded Annam.

Cholera is committing great ravages in Hanoi, the average number of deaths being 30 per diem.

Habana, 30th—The tobacco crop is superior in quantity and quality to the crops of previous years.

Rosario 2nd—At 5 p.m. yesterday great alarm prevailed in commercial quarters, owing to the report that a whole block in Calle San Lorenzo was on fire. After some time it was discovered that the flames came from Messrs Sagasti and Co's stores, which contain immense quantities of alcohol and other combustible articles. It was feared at first that the fire would spread to the neighbouring houses; but, thanks to the energy displayed, the flames were limited to Messrs Sagasti and Co's premises. This house of business is one of the most important in this city, and although it was insured in about the sum to which the estimated losses amount, great consternation prevailed in commercial circles, as the suspension for any lapse of time of this company's transactions will seriously affect the whole commercial body.

The losses are roughly set down at $150,000, which will allow the reader to for nuan idea of the intensity and strength of the fire. The stores were insured in three companies for an amount sufficient to cover the losses.

The fire was extinguished towards 9 p.m., so that it had lasted about 4 hours; nevertheless the smouldering ruins give some trouble at the present moment.

Three persons have been hurt, one very seriously, but nobody was killed. The police have imprisoned 15 persons who, in the midst of the general confusion, had tried to steal some of the goods.

This fire has been the largest ever witnessed in this city.

Rosario 2nd—The death is announced of Quintin del Valle.

Telegrams from Santa Fé report the inauguration of the railway station of the Colonial railway. It is a magnificent building.

Montevideo 2nd.—The papers publish obituary articles with reference to the death of Dn. J. José Arteaga.

The Custom House receipts of the month of September amounted to half a million of dollars.

Dr. Costa's letter has caused great sensation, and 10,000 copies have been sold.

Four days' quarantine will be imposed on all vessels hailing from Italian ports.

The Municipality and the Solis Theatre Company have come to an arrangement respecting the piece of ground taken by the municipality for the enlargement of one of the streets.

The marriage is announced of Sta. Piñeyrua and S. D. Eduardo Espalter.

M Berdoni, an Italian writer, arrived in the Matteo Bruzzo.

## CURSO FORZOSO DEBATE.

This all important measure, which of right should have been the very first discussed by Congress, came up for final debate yesterday, before, perhaps, the most crowded house we have ever witnessed. In fact, Congress Hall yesterday presented the same overcrowded aspect as Colon on a gala night, every box, seat, chair etc., filled, and when the curtain rose Mr. Deputy Paz resumed the thread of his discourse, which was interrupted the previous evening:—

Mr. Paz began his brilliant and eloquent speech by admitting that he was an enemy to all emissions, but as a practical man he saw no help for it and therefore accepted it as a necessity. He believed that already it was an arranged fact that we are to have an emission of 12 millions for the Nat. Bank; which bank is the keystone of the central arch, the foundation of an edifice which totters and we are bound to support; already we see the current, it may become a torrent, let us therefore beware, and take every preventive measure to save the country from financial catastrophe. What I oppose is the hostility going on between the two Banks, the rivalry and competition which is a grave error. These two Banks fighting may bring ruin and desolation and disaster on the whole country, and Congress should do all it can to make these two Banks work harmoniously. Frankly, I tell you, I fear the future of the National Bank, scattering millions here, there, and everywhere, whilst in the Interior they have not a copper to help themselves with. Doubtless the works going on are useful, railways, tunnels, Lazzaretos, grottoes, boulevards, archs, but the country is not able to stand them; we are not ready for them. The National Bank, if we don't look sharp, will paper the whole country. Already it has raised a sort of paper emission aristocracy amongst us. Ministers, Government clerks, officers, all form a paper issue aristocracy and at the rate we are going on soon when we pass by the National Bank in Calle Reconquista we must take our hats off to the paper throne we have erected there. I say, gentlemen, down with that aristocracy and that paper issue empire! If things were properly arranged the National Bank notes would circulate in Provinces, and Provincial Bank notes in the Capital. We have planty of banks in town without the National Bank, we have the Banco de Italia, Carabassa, the London and River Plate, the English Bank, and the Commercial Bank. Let the National Bank, therefore, attend to the Provinces and leave the Provicial and other Banks to care the town.

The Nat. Bank circulation in the capital should be only in a certain proportion. The bulk of its notes should be in the interior; but it is not so, and now if we give it more emission the notes will remain here in the capital. Because there is a wretched rivalry and competition going on between the Provincial and National Banks, which Congress should stop. I charge the National Bank with being the cause of 'curso forzoso.' Look at the figures. In two years its issue has risen from 2 to 28 millions, and now we are going to make it 40 millions!

When curso forzoso was declared the National Bank had 27 millions emission, it has the same to-day; but when curso forzoso was declared the Provincial Bank had much more circulation than it has now, which shows that one bank is doing its best to combat curso forzoso, whilst the other in coming here and asking for more emission, is doing its very best to increase the catastrophe, which its own recklessness has produced; verily it would seem we want two curso forzosos to get along. If we pass this law now we shall add ten fold to the agio, and if we refuse to give the Provincial Bank the 4 millions emission, I propose, we will perpetrate a great injustice which will soon re-act on the country. The Provincial Bank has bonds and stocks and credit, and can raise whatever it likes in London, and the National Bank has nil, and if we only knew its cartera perhaps it is worse than that of the Provincial Bank. I know that the Provincial Bank will accept my proposal, and take the emission of 4 millions in chancellation of what the Government owes. This is a fair straightforward business, it is an idea of my own, and not of the President of the Bank. I have submitted it to the President of the Republic, and he also approved of it, and had frequent consultations with the Minister of Hacienda who has, like with the Gonzalez contract, introduced some amendment which places the bank at his feet, and neutralizes the whole measure.

If we give 12 millions new emission to the National Bank we will perpetrate a great injury, even to the National Bank itself. This bank stands without any other friends than the shareholders, who want to push the shares up and get great dividends, but the public takes no interest in it. Not so with the Provincial Bank, who, well I remember, when years ago it was attacked and calumniated, the whole town brought money to it, and its deposits increased by millions in half an hour. There is no ability whatever in the management of the National Bank; all its money is gone in discounts here, not a penny in the Interior, and now the bank has arrived at such a crisis that positively here, even in the very capital, it has nothing. No paper money, no gold—nothing; and its capital, where, may I ask, is it? All fictitious. Again, I warn the House, this new emission will not go to the Interior, but remain here in this city, all to be spent in extravagance, and splendour, and nonsense, and got out of the bank by "gracia empeño", and favor palaces, cascades, tomfooleries—that's where this twelve millions new emission will go. (Applause.) To get a dollar from one of the branches in the interior, is to win a battle. I play the flute for no man, but I dare to speak the truth. The National Bank is the sole and absolute cause of 'curso forzoso,' and now you want to give this Bank a new emission (great applause) if we follow on so, there will be emission on top of emission. I see it coming, and finally the National money will reach such a depreciation that none will receive it. Every new emission to help the Bank will increase its difficulty. Homeopathy won't do, paper won't cure paper, but it will kill paper, and that is what we are driving at.

It was all very well to bolster up and give privileges to the Provincial Bank when it was the only bank in the country, but now we have banks by the dozen. What privileges has the Provincial Bank to-day? None, it is the same as the Italian or Carabassa's banks, and yet it thrives flourishes and pays its way without coming to Congress for support.

Deputy Paz here paused and said that he could not proceed without the presence of the Minister of Hacienda, as he had some questions to put him.

The President of the Chamber said that the Minister had been sent for, and would be here in a moment.

Minister Pacheco entered. Whereupon Mr. Paz asked H.E. Is it the opinion of the Government that the National Bank requires this new emission.

Dr. Pacheco. Yes

Then I regret it, and regret that in the presence of the Minister, I have to charge him with having deceived the house, coming down here and telling us, not more than a couple of weeks ago, that he was opposed to any new emission, and none would be necessary.

Dr. Pacheco explained that what he promised the house was that the Government would not authorize any emission on its guarantee.

Mr. Paz—Gentlemen, I deplore to tell you my experiences of this bank, and how I sent my clerk for gold once to this bank, and, he poor fellow, was taken into a back room where the Minister of War stood before him. You all remember the tremendously severe martial countenance of the War Minister Victorica. My clerk was frightened out of his life, trembled from head to foot, and cleared out as fast as he could without bothering for the gold—and this is your grand Nat. Bank. This is the Bank of the Nation; this is the Bank that we are to give a new emission of 12 million to keep its doors open (great uproar.)

The Minister rose and said:—

The debate is so long and the speech of the Minister so important that we must here pause in order to publish H.E.'s speech in full to-morrow.

At 7 p.m. the House adjourned until 9 p.m. in order to allow the members to get some dinner.

At 9 o'Clock sharp Deputy Paz resumed his speech, attacking the Minister, the Government and the National Bank in the most tremendous terms. General Mansilla, Sr. Lainez and Dr Lequizamon followed. Sr. Paz made severe charges against the Nat. Bank and said that the Provincial Bank holds a valé for 300,000 m|n gold, which for the last 3 days it is trying to collect and can't.

At 1/4 to 12 the debate closed. General Mansilla moved, that the names of all who voted for the new emission be recorded; as also those who opposed. This extended the matter still further, and at last the voting on Article 2 took place. Which article gives the National Bank emission up to 40 millions. The voting resulted.

For the measure.... 41
Against it..... 30

The House then rose it being midnight, and the debate continues to-day, but it is clear now that the majority will carry everything, and Article 4 will also be passed, as also the other articles already published. The Government for the Pellegrini loan business has the same majority in Congress.

## MESSRS. HORNSBY'S WORKS AT GRANTHAM.

(*By our Brother Editor.*).

London, August. 10th.

On the invitation of Messrs. Hornsby I went last Saturday to see their works at Grantham, which are already known to many people in the River Plate by the quantity and variety of agricultural implements sent out to Montevideo, Buenos Ayres and Rosario. It is really a very interesting place, and had been visited only three days previously by the Institute of Mechanical Engineers, in their usual autumn excursion. The high opinion which those experienced gentlemen formed of it justified a lengthy article in *Engineering*, which I have at present before me, but which is too full of technical details for ordinary readers. A few general remarks about the origin, rise and scope of the works will be more to the purpose.

In proceeding from the railway station to the factory one is impressed by the great extent of the works, with their numerous, tall chimneys, covering an area of 16½ acres, equal to 4 blocks of Buenos Ayres. It reminded me of Krupp's factory at Essen, for it overshadows the town of Grantham, giving life and prosperity to a population of 18,000 souls. Although nominally a joint-stock company, the enterprise happily preserves the name of its founder, whose sons, Messrs. James and William Hornsby, are the managing directors. The former of these gentlemen introduced me to the principal members of his staff, among whom I may mention Mr. Southwell, general manager; Mr. Smithurst, secretary; Mr. Edwards, chief engineer; Mr. Zimmermann, chief of the foreign and colonial department; and Mr. Benjamin Morton, just returned after a successful journey to the Santa Fé colonies, where much of the Hornsby machinery is in use. At the present time there are 1450 men at work, who are aided by steam-power of 640 indicated horse-power and boiler-power equal to 850 indicated horse-power. The value of implements despatched weekly sometimes reaches £20,000, and the factory consumes 8,000 to 9,000 tons of iron and steel yearly, besides several shiploads of Baltic timber and a large quantity of British oak and ash. There is a special branch railway, by means of which machinery and implements of the largest size can be conveyed to the G. Northern, and sent right away to the London, Hull, Liverpool or Southampton docks for shipment to any part of the world.

This immense establishment had a small beginning. It was in the year 1815, when the smoke had hardly blown away from the field of Waterloo, that the coach from London to York deposited at Grantham a clever and enterprising man named Hornsby, who bought a piece of ground near the town and commenced with half-a-dozen workmen to make ploughs, drills and harrows for the Lincolnshire farmers round about. He thought, no doubt, that with the overthrow of Buonaparte agriculture would receive fresh stimulus, and that henceforward there would be less demand for swords than reaping-hooks. He may have even hoped, with the expanding trade of Britain, to send out some of his ploughs to the "plantations" or the W. Indies. But, however great his ambition, he had no idea of the future importance of the establishment that he founded. He was, meantime, no less careful than intelligent, giving such satisfaction to the farmers of Lincoln, Leicester and Nottingham that in 1830 he found it necessary to introduce steam-power, and when the business, at his death, passed into the hands of his son, it had won a reputation that was not confined to the adjacent counties. Its further development was under the second Hornsby, who extended the works and displayed if possible more energy than his father; from that time it rapidly rose till it took its rank among the great industrial establishments of the kingdom.

In the Board room, the walls are hung with certificates of gold medals and other prizes, in various languages, won at Exhibitions in different parts of the world, but the latest one of which Mr Hornsby seemed proud was the Hundred Guinea prize awarded him last year by the Royal Agricultural Society of England for the "best sheaf-binder made in any country." It took us 3 hours to walk over the works, Mr. Hornsby and Mr Zimmermann explaining to me the many appliances for saving labor, the special merits of malleable iron, and the various uses of the machines. In the smith's shop I saw 58 forges at work, besides 8 steam-hammers, some of them over a ton weight. Close by was the department of ploughs, where there were some thousands, of 150 different kinds, to suit the soil and conditions of various countries. Here we met Mr Gerald Woodgate, who had just arrived from Glasgow, of the firm of M. Forrester & Co., the company's agents at Buenos Ayres. The object of his journey is to inspect the various special machines which are being constructed to meet the requirements of the River Plate.

The workshops have an average length of 300 feet, and except for the din of the steam-hammers and the rivetters, would be very agreeable; they are well lighted and ventilated, besides having all appliances in case of fire. It was admirable to see so many hundreds of men at different kinds of work, without the least confusion. Their wages average 30 to 45 shillings a week, all being paid by piecework, which seems preferred no less by the employers than by the men. Electric light enables them to work much better after dark than they could formerly with gas. The engine and boiler shops are immense, in shape like the wine "bodegas" that one sees at Xerez, and the roof of the Reaper and Binder store is a new invention by a Belfast firm, which Mr Hornsby recommends for its cheapness and durability. It is almost appalling to see 15-ton travelling-cranes running over one's head with a cotton rope, 2,000 feet per minute; by their means the heaviest pieces of machinery or engines are lifted and carried along to the railway waggons, as easily as if baskets of eggs. There was what tradesmen would call 'a large assortment' of portable engines, besides traction engines, and in the adjoining shop I saw the men making boilers for steam pinnaces for the British Admiralty. The manner in which they tested the engines and boilers, each of them three times, shewed the care which is taken that everything which leaves the works shall be perfect.

In the threshing-machine shop, which covers an acre in extent, there were several of these machines just completed for South America, painted and finished as tastefully as if they were family carriages; some bore the name of M. Forrester & Co., B. Ayres, others Le Bas Spangenberg & Co., Rosario, or Matthew Pinsent & Co., Montevideo, the Company's agents in those places. One of them will thresh about 1200 bushels of wheat daily, that is the average crop of 30 cuadras or 120 acres of the Santa Fé colonies; the cost at the works is about £160 each. Some of these machines were boxed up on trucks for Liverpool, to be shipped by Lamport & Holt's steamers. There were also patent reapers and mowers for various parts of the world, Chile, Santa Fé, New Zealand and South Africa, shewing the extensive ramifications of the business, the Company having courteous and experienced travellers in all countries whose special business it is to study the requirements of climate, soil, industry and habits.

Should the managing directors ever think fit to adopt a motto for their establishment I would suggest that line of Virgil.

"Quae regio in terris nostri non plena laboris?"

What country is there in which Hornsby's implements are not doing good work? Baron Krupp has sent his cannons to the ends of the earth, but these patent reapers and binders are as beneficent as the breech-loaders are destructive.

While hundreds of mill-owners and others are complaining of depression of trade the greatest activity prevails at Grantham, because Messrs Hornsby, instead of sitting down to grumble at low prices or ridicule the particular tastes of foreign customers, have in a timely manner devised every possible method of cheaper production consistent with efficiency, and studied the tastes and requirements of people of other nations in their modes of agriculture. Only 30 per cent of the machinery and implements turned out at these works is for home use, the remainder being for British Colonies, South America and elsewhere. This is very gratifying, when we remember what continuous and praise-worthy efforts the American manufacturers have made in recent years to compete with British makers. The piles of stacked timber in a field adjoining the factory would seem to be sufficient for the wants of many years, and doubtless are, since the Company make it a rule to use none but seasoned timber, which can stand any climate. In every particular the greatest attention is paid to details, for, as it was explained to me, the deviation of one-10th of an inch in the placing of a screw or bolt might render one of these machines defective. To ensure the utmost accuracy every particle of work is automatic, even the most intricate and delicate details being done by steam-power, guided by skilled operatives.

It is to be hoped that the Parliamentary Committee about to sit on the Depression of Trade may summon one of the Messrs Hornsby as a witness, and he will tell them that British manufacturers can hold their own against all competitors, by attonding to the minutest details in their business, and studying not merely the wants but the caprices of their customers, providing the protective tariffs of other countries are not prohibitive.

*M. G. M.*

## MR. BLAKE'S VISIT.

As stated in our last, Mr John A. Blake, late M.P. for County Waterford, Ireland, whom we cordially welcomed to South America some weeks ago, returned yesterday to Buenos Ayres from a lengthened tour over the Northern part of the Argentine Republic, and over a large portion of the Republic of Paraguay.

Mr. Blake had contemplated crossing the Andes into Chile, by the Uspallata Pass, and after visiting this Republic and Peru, proceeding to Central America, Mexico, and the West Indian Islands. On arriving at the Andes, however, he found that none of the passes would be practicable for some weeks yet, owing to the depth of snow, and had to confine himself to seeing the distant glories of the snow-clad peaks of Tupungato and Aconcagua, and ascending some of the lesser Cordilleras near Mendoza and San Juan.

As Mr Blake has been making very active inquiries during his present lengthened tour round and over the World into the productiveness of the various countries he has visited, especially how far they were likely to interfere with the agriculturalists of Great Britain and Ireland, his impression with regard to South America, especially the River Plate, in that direction, must be considered as of importance, coming from one who wrote a work which attracted much attention at the time on the effect of the agricultural competition of the U. States on the European food market, and who lately travelled over land through Australia, New Zealand and Tasmania, inquiring closely into their power of food production. Mr. Blake expresses himself greatly impressed with the amazing capabilities of this Republic as regards meat supply, and has no hesitation in saying that, when greater care comes to be exercised in breeding, more economy in refrigeration, extended railway accommodation, vessels better constructed for internal navigation by requiring less water in ascending the rivers, that it is unevitable that this part of South America will fully rival North America in meat supply, and to a large extent cut out the Australasian Colonies. He considers that there are two great advantages which we possess over North America: first, that in the latter as a rule when the grasses are eaten down to the root they have no power of recuperation, and the soil requires fresh seed to be sown in order to be of any use, entailing much labour and delay, whilst here, no matter how closely cropped the soil may be, a few showers of rain make it all right again. Next the quantity required for home consumption is infinitessimal as compared with North America; the latter possesses, no doubt, advantages as regards less ocean freights, but considering the distance this is much less than might be supposed.

As regards Australia and New Zealand the distance being little more than one half, the saving in freight ought to be in almost the same proportion; then the cost of land is enormously less, particularly as compared with New Zealand, where the land fever rose to such a height some years ago that land even distant from towns rose to Twelve Pounds an acre and near towns, but only valuable for sheep, production, to upwards of Fifteen Pounds. Nearly all the station holders are so heavily indebted to the mortgage companies that they have little prospect to redeem themselves.

Much spirit is shown by the stock raisers in Australia and New Zealand, which it would be desirable to see imitated here, as much as two thousand pounds being some times paid for sire rams.

It will be interesting to quote Mr. Blake's figures respecting the New Zealand exports of mutton, as the quality stands first in the London market as regards meat imports.

The animals when cleaned usually weigh from 70 to 80 lb. First cost per lb of clean carcass, 2d; killing, skinning, disembowelling, freezing and shipping, ½d per lb; ocean freight, 1½d do. Landing: Commission in London on sale, ½d per lb; price lately realised, 5½d, thus leaving a profit of ½d per lb, less than which it would not be worth shipping, boiling down for tallow being more profitable,

The shipments from Australia have left a considerable loss, the chief company engaged in the trade having lost six thousand pounds for the last six months.

It is now for our producers and shippers to calculate what they can do in rivalry with New Zealand as regards mutton, and with North America beef.

We give some figures from Mr. Blake's pamphlet in reference to the beef supply from North America:—

"Turning to meat, the Assistant Agricultural Commissioners say, that "really prime beef can be delivered in England and sold at a fair profit at 6d. to 6½d. per lb.;" but add "that exporters could sell at less and make more money if the meat was properly treated in England."

"At Kansas City, Colorado steers selling for feeding at five guineas, worth three times as much in England. The Kansans are an excellent breed of greeded cattle, fattening at from three to five years, and weighing 1,200 to 1,600 lbs.

"In the Wyoming Territory the cost of raising a bullock is ten dollars, or £2. 6s., including all expenses and losses.

"The profits of stock-raisers on cattle is from 25 to 33 per cent., even the latter figure is probably below the mark.

"A fat bullock there of 1,450 lbs. would cost £15; conveyance from Cheyanne to New York £2. 14s., freight to Liverpool £5, food on board and insurance £1. 10s.; total cost a Liverpool £24. 4. Yield in dead or dressed meat 876 lbs."

About £4. 4s. might be deducted for hide and offal. This would leave the cost at Liverpool £20, or 5½d per lb. Before long a considerable reduction will be made in the foregoing figures, owing to the following causes: The great increase of stock certain to take place owing to the large profits now realised. The approaching competition of the dominion of Canada. The reduction in overland and ocean freight, both too high; particularly the latter; and the better treatment of the meat in England.

Dead meat landed at Liverpool would be about 5½ per lb. The ocean freight is considerable; charged by measurement it amounts to about three-farthings a-pound. This branch of the trade, owing to the present bad arrangements in England, cannot be satisfactorily carried on except for the six months from November to April inclusive.

Mr. Blake will probably proceed today, with a leading estanciero, to visit his and other estancias, and, after making a hurried visit to Patagonia and a run through Uruguay, will leave for England.

## THE NEW BUILDING SOCIETY.

The circular we give at foot will be a surprise to the public, since it reveals a state of things which, if not remedied, will end in the dissolution of this young and most necessary enterprise. We, of course, know nothing of the merits of the case, beyond the statements in the circular, but it does seem astonishing that some of the more influential shareholders have not interfered to settle the matter in dispute, and avoid the extremes that have necessitated the publication of this circular:—

To the Shareholders,
La Edificadora,
Gentlemen,

We regret to inform you that your Directors have refused to carry ou our contract with the Society (article 53 of the statutes) and are withholding both cash and shares due to us, in accordance with their resolution and letters of allotment and agreement. We trust at the forthcoming meeting you will pass the following resolution, and thus put a stop to all legal proceedings, which must be disastrous to the welfare of the Society, and which we have most reluctantly been compelled to take:

RESOLUTION—

That Messrs. Ancell and Ross be immediately paid in full the balance of the $5 per share commission due to them on all shares allotted up to date, together with the legal expenses they have already incurred to obtain the same, and that in future this commission of $5 per share, half in cash and half in fully paid-up shares, be paid to them without any deductions whatever, as and when the shares are allotted, and that for the convenience of both parties a monthly account be rendered to them and settled.

The particulars of the dispute are as follows:—

During the formation of the Society the statutes were arranged in English, and the minutes of the meetings were taken in English, every member of the Board and ourselves being conversant with that language. Article 53 distinctly states in the minutes, that we are to be paid $5 per share commission, half in cash and half in fully paid up shares as and when the shares are allotted. When the Directors took over the Society 637 shares being applied for, they informed us that the Spanish translation in their opinion was not correct, and regretted they did not feel justified, without first consulting the shareholders, in paying us as was stipulated. They, however, paid us $955·50, allotted us 15 fully paid up shares, and agreed to pay us $637 in three months, which was afterwards confirmed by their letters; this being in all a settlement of the $5 per share commission on the 637 shares; this sum when due, together with the certificates of the shares, they have refused to hand us, unless we sign such a receipt, which together with their letter, we are advised might make our contract null and void; yet, at the same time, they have transferred two of these shares as requested, thus acknowledging that the shares are our property. We have reasons for believing that the Directors are acting contrary to the advice of Dr. Balbin, the Society's legal adviser, and we maintain that the wording of the statute does imply that we are to be paid the $5 per share commission on allotment. The Directors also claim to have the power to pay and fix commission to brokers for selling shares, and have given us notice that they are paying brokerage on our account—to this we have protested. If the Directors had this power they might decide to pay $5 per share and make our contract null and void, or even to pay more and charge us with the difference. We have endeavoured to come to an amicable arrangement, but without success, and consequently have not been in a position to dispose of shares, which we could have done, and having been, we may say, totally ignored by the Directors ever since they took over the Society, and never having been once invited to attend a board meeting to discuss and arrange the dispute, we had no alternative but to place the matter in our 'abogado's' hands. We, however, in the interests of the shareholders, at the last moment stayed action, feeling sure that you would not support the majority of the Directors in desiring to take advantage of an error (if any) in this article in the statutes. We were informed by the President that a meeting of shareholders would be held early in August, and have up to now been patiently waiting for it to be called; in the meantime, we offered to agree to the payment of certain brokerage, provided we received the certificates of the shares already allotted to us, which are being illegally detained, and the cash due to us; but our 'abogado' was informed that the Directors would prefer to pay us a sum down for the contract, we then offered to settle on this basis, but the sum offered we did not feel disposed to accept, and, moreover, we were told by the Directors that they had no power to buy us out unless with the sanction of the shareholders.

We feel sure that it is not necessary to point out to you the disastrous effect litigation would have on this prosperous Society, already the fact of this dispute being known has had the effect of stopping many applications for shares. We therefore trust that the shareholders will settle the matter amicably at the meeting, when we will continue our arrangements for placing the balance of the capital. In conclusion we beg to state that although we are legally shareholders we have not received a notice of the meeting to be held on the 5th October, which it is intended to prevent us attending.

Congratulating you on the success of the society and its future prospects,

We are,
Yours faithfully,
*Theodore R. Ancell.*
388 Bolivar.
*Augustus Ross,*
122 Bolivar.

P. S.—We regret being compelled to publish this circular, which was to be sent privately to the shareholders, but as we cannot obtain a list of the shareholders we have no other alternative.

## IMPORTANT FROM MONTEVIDEO

Montevideo, Sept. 30th.

Dear STANDARD,

Your yesterday's number at hand, I take the liberty to check your R. O. bookkeeper by telling you the result of my calculations.

It is this:

1 cent at 1 o/o interest
p. a. gives in 1885
years only . . . $1,399,068.49 cts.
Capitalised quarterly $1,500,983.73 cts.

I did not take the trouble to calculate it up to yesterday's date; but if you like to know, just tell me. Next Sunday, between lunch and lawn-tennis, I have got ten minutes to spare, which I most gladly shall employ to oblige you.

Yours, etc.,
*A Faithful Reader.*

## EDITOR'S TABLE.

Last night at midnight the most important article of the new 'curso forzoso' bill was passed, giving to the Nat. Bank a further emission of 12 millions. We give in another column a precis of the debate. To-day the debate on the bill will be conciuded. We note the Government has a sweeping majority of 41 against 30.

The Powers have lost no time in getting the Conference together at Constantinople. Things are looking very glum for the Turk in Crete and Tripoli. Prince Alexander of Bulgaria has sent Mr. Hodgipetroff to the Sultan to tell him he may count on the undying friendship of Bulgaria if he consent to Roumelia's union with it, now a 'fait accompli.' The Sultan says it is all a hodge-podge to rob him, and Mr. Hodgipetroff had better be off home again.

What are our miserable inundations here to a flood in British India? 3,500 square miles under water in Bengal. Talking of India, we see that Lord Dufferin is at last about to annex the Kingdom of that drunken scoundrel King Theebaw of Burmah. It is about time. The French are backing him up in some slippery tricks against English trade.

There is some move in the Corporation, as lots of small fry such as health inspectors, tax gatherers "et hoc genus omne' are getting the sack 'sans ceremonie.'

Justice is a queer jade in this lovely land. The other day a female who, no doubt, considers herself a lady was sentenced to sixteen months' imprisonment for killing a little servant girl; and yesterday a poor devil of a Ligurian got eight years for merely stealing something and then thrashing the man he stole it from. There must be something wrong with the code, or the Judge, or somewhere.

The Right Rev. Dr. Sterling, Bishop of the Falkland Islands, will preach on Sunday afternoon next at Holy Trinity Church, Lomas, and at the Barracas Institute.

Another Krupp gun affair, by all that's—what shall we say? Not what Sir Peter said—delightful! Such blundering (Lord Beaconsfield would add another word). The hydraulic cranes along the Riachuelo, erected at such ferocious cost are found to be useless and are to be removed and 'encajonados.' When is this kind of thing to stop?

The only news from the interesting province of Catamarca is "Siguen los escandalos," so we suppose it's all right.

A rousing $100,000 fire is reported from old Rosary where they appear to have as few appliances and means to boot for such an emergency as are to be found in the Caroline Island,s (unless the Herrs took out some fire engines.) Two insurance companies "stuck," and the "poblacion consternado." We had no idea the Rosarians were so timid.

We are glad to state that Professor A. van Gelderen has been made an officer of the French Academy by the French Government, in recognition of his learning and long and faithful service in the educational line. We congratulate the professor on this well-deserved honour.

The amount of Stamped paper sold during last month was 129,721,39 and for the same month last year 101,595, shewing an increase this year of $28,126.

To-night 'the Duse-Checchi' makes her debut in Fedora. The piece is well-know and a favorite, and the old Politeama will be crowded.

There is considerable difficulty in getting anybody to figure as Marine National Guards, so the time for enrolment has been extended in that branch of the service. An Argentine sailor is an extremely 'rara avis,' and nearly all our sea-faring population is foreign.

"I'm going to get married," said he, as he placed a hand upon the counter as large as a Dutch cheese, "and I want a wedding cake." "It is customary," said the pretty assistant, "now-a-days to have the materials of the cake harmonise with the calling of the bridegroom. For a musician, now, we have an oat cake, for a man who has no calling and lives upon his friends, the sponge cake, and so on; what is your calling, please?" "I'm a pugilist." "Then you want pound cake."

"Arma virumque cano" was the order of the night yesterday in fashionable circles, and the worrhy Damas de Misericordia must have made almost as much out of the Fencing bout as they got from the ball last week. Particulars in our next.

The police of Buenos Ayres province are now engaged in a 'mystery;' the disappearance of a Ligurian named Amatto from Ayacucho four years ago; and somebody has now hinted that he was made away with.

"What are the last teeth that come?" asked a Lynn teacher to her class in physiology. "False teeth, mum," replied a boy who had just waked up on the back seat.

A lady, who has been abroad, was describing some of the sights of the trip to friends. "But what pleased me as much as anything, was the wonderful clock at Strasburg." "Oh, how I should love to see it," gushed a pretty young woman in pink. "I am so interested in such things. And did you see the celebrated watch on the Rhine, too"?

A stoical Scotchman was addressed by his sick wife, "Oh, John, I shan't leave this bed alive!" "Please yoursel', Betty, and you'll please me," returned John, with great equanimity. "I have been a good wife to you, John," persisted the dying woman. "Middlin', Betty, middlin'," responded the matter-of-fact husband.

ENGLISH HIGH-SCHOOL
257—*PERU*—257.

NOTICE.

Parents and Guardians intending to enrol children at this School, are requested to do so AT ONCE; as no more DAY-PUPILS can be received for this Session AFTER THE END OF THIS MONTH NOR ANY more BOARDERS after the few remaining vacancies are filled up, the chool being already full.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

EDITOR'S TABLE

*(Continued from 1st page)*

The police surprised a lot of old barbarians all at play the other night in a gaming house in Calle Colon. They made a desperate rush to escape, but eight of them were hauled. There is no more amusing sight we hear than the consternation of a lot of gamblers caught "in flagrante delicto." All kinds of dodges are resorted to to be allowed to escape; but it is never done. Men who would be greatly surprised and offended if not considered highly respectable, and would probably be called 'apreciable' by any newspaper reporter that might have occasion to refer to them, are often caught in these dens. Occasionally a 'muy conocido' or 'distinguido' turns up.

It is no longer a State secret that the National Treasury is just now represented by Mark Twain's initials. There is not a copper to pay the clerks their salaries for September, and a lot of them have not been paid for August yet. In the midst of peace, plenty and prosperity too much go-a-hedism has brought the country to this humiliating pass. Congressmen should be generous and not draw their salaries till the poor clerks are paid.

Mr. Victorio Severo got a for him very severe "stick" (139 nats) on Thursday because he wanted to make his fortune out of a forged lottery ticket. The severity of his countenance when he told his tale of woe to the police was a caution to caricaturists.

The Geographical Society has done itself the honour of naming Dr Ortiz, Minister of Foreign Affairs, one of its honorary members.

General Napoleon Uriburu has a difficulty with the Chief of the Staff of the Army, General Viejobueno, for a fiery political speech he has just made in the Interior. In Europe the army always considers itself above such a low thing as politics.

There was a highly amusing scuffle at the political banquet in the National Theatre the other night. A guest called for cigars, and when brought to him said they were cabbage-leaves. The waiter said he had no better. "Call Canale!" roared the guest. Canale appeared and immediately had his eye blackened. A triangular scuffle then ensued between Canale, the "garcon" and the guest, in the course of which they all rolled over each other on the floor, kicking and striking wildly, smashing plates, bottles and glasses, to the intense amusement of the lookers-on, who finally separated them.

Mr. Poggi is going to exhibit such a tremendous big organ at the coming Italian Exhibition at the Recoleta, that the roof of the building will have to be taken off to get it in. When playing this organ the performer has to bung up his ears with wool, or its deep roar would smash his ear drums.

His Holiness has honoured the Catholic Union with a special message, which will be delivered on the 8th inst. by the Archbishop, in the saloons of the Catholic Association.

Mons. Thibaud, the famous French piano player, will make his debut to-night at the musical and literary entertainment giveu by the Catholic Club He will play four pieces.

The delegates who came from the provinces for the Rocha demonstration on Sunday last all went on a pic-nic to La Plata yesterday, and returned in time for dinner. Of course they were rather surprised and much pleased.

There is great fun and some loss of temper amongst our colleagues about the skit on Mr. Cranwell's 'menu' at his political banquet the other day. It's enough to permanently impair one's appetite to read this medicinal 'menu.'

Parties living in the heart of Midlo—we meant town, can now take a Lacroze car at the corner of Cangallo and Reconquista at 5.20 in the morning, in time to catch the first train for the camp on the Western Railway.

The Regatta in fixed for the 11th November, so we will have lots of time between this and then to sing its praises, and won't bother about it now.

Monsieur Thouar has started from Formosa to explore that truly irrepressible stream the Pilcomayo, a river that causes far more bother and expense than it is worth, or ever will be worth.

We feel the greatest pleasure in saluting the *Cronica* on its third anniversary, wishing it prosperity for 3000 years more.

The Continental Ex. again. The Venezuelan representative has claimed the prizes won by his countrymen. It is on record that far more prizes have been given than there were articles exhibited at this immortal Show.

The survey for the new Pacific track from this city to Mercedes were commenced yesterday.

They are going to try and improve that miserable effigy of Adolfo Alsina in Plaza Libertad by putting it on a higher pedestal. Nothing could make it presentable.

There is a 20 cent round robbin in progress to present our distinguished colleague, Mr Epiphany Martinez of the *Pueblo* with a gold penholder. The sum of ten dollars twenty cents has been got together. The only thing in this line that our long editorial career ever brought forth was a shilling Styleographic Pen, presented to us by a sympathising subscriber some years ago.

"Uncle," said a young man, who thought that his guardian supplied him rather sparingly with pocket-money, 'is the Queen's head still on the sovereign?' 'Of course it is, you stupid fellow. Why do you ask?' 'Because it is such a length of time since I saw one."

"He's not what you call strictly handsome" said the Major, beaming through his glasses on an utterly hideous baby as it lay peacefully howling in its mother's arms, "but it's the kind of face that grows on you." It's not the kind of face that ever grew on you was the indignant and unexpected reply of the maternal being," you'd be better looking if it had."

ESQUINA A COLON
Base de Venta
## Ps. 14,000 m[n].
*AD-CORPUS*
El Domingo 4 de Octubre
A la 11 del dia

Remataremos a la mas alta postura y dinero de contado, por orden de su propietaro.

La magnifica casa-quinta arriba indicada cuyo terreno se compone de 51 vs. de frente a la Calle Flores por 136 vs de fondo y frente a la calle Colon, donde forma esquina con otra calle toda rodeada de reja de fierro con pilares redondos de material.

El edificio construido en cal y azoteas con maderas duras, se compone de:

1° cuerpo con sala, ante-sala, comedor y cuatro grandes piezas con cielo-rasos de yeso, pisos de baldosas, puertas y ventanas de cedro, todo recientemente pintado y empapelado.

Un corredor cubierto con vidrios de colores y otro gran corredor que da frente a la quinta.

2° cuerpo, para servicio, 3 grandes piezas azoteas de maderas duras, puertas de cedro, 2 cocheras y una caballeriza para 4 caballos, algibe, pozo con su bomba y pileta, cocina, letrina, cuarto de baño, etc., patio piso de baldosa y piedra.

Una gran quinta con arboles de escogidas frutas, jardin con peluza, arbustos y planas, de adorno, 3 grandes parrales zarzo de fierrto dos de ellos de 70 a 80 vs de largo y otro mas chico.

Vereda con grandes paraisos al frente y el fondo de la propiedad cercado de pared. En fin, es una hermosisima propiedad, que como se ve no deja nada que desear, situada en uno de los parajes mas altos y poblados de Flores y a solo dos cuadras al Sud de la calle Real, cuyo tramway corre hasta las 12 de la noche hasta la ciudad ida y vuelta.

La propiedad esta en perfecto estado, lista para habitarse y no hay sino llevar los muebles

La base de $14,000 m/n que servira para la venta aunque sea con una sola postura, no paga el valor del edificio, quedando el terreno de balde.

Titulos garantidos.

Los interesados pueden visitar la quinta todos los dias y a cualquier hora.

Por mas informes, ocurrir a nuestra casa, Alsina 78.

Hoy perteneciente a sus herederos
## Una manzana y parte de otra
DIVIDIDA EN 35 LOTES
Altos esplendidos y lo mejor de la localidad
Sin Base Sin Base
POR LO QUE DEN
Lotes amojonados, con escrituras gratis
El Domingo 4 de Octubre
A las 2 p.m.

Remataremos a la mas alta postura y dinero de contado por orden terminante de su dueños.

Estos esplendidos terrenos divididos en 35 magníficos lotes, situados como se ve, sobre la Calle Real en el paraje mas alto y mas lindo de este pueblo.

Estan rodeados de las hermosas casas-quintas de los Doctores Rafael Ruiz de los Llanos, Pedro Argerich, Maderna y otros, con tramway, gas y macadam.

Todos estos lotes estan amojonados con mojones de fierro.

Por planos y demas informes, a nuestra casa Alsina 78.

### Nota Importante.

Los titulos se daran gratis a los compradores y seran espedidos por la escribania del Señor Villalonga, situada en dicho pueblo calle Necochea 17, previniendose que todo comprador debera escriturarse dentro del termino de diez dias de efectuado el remate, pasado este termino perdera dicho derecho y seran de su cuenta los gastos de su escritura.

Alli tambien pueden verse los titulos de estos terenos los que se garanten ser de primer orden.

REMATE
POR
## H. BAIZAN
# INAUGURACION
DE LA
# Primavera
EXTRAORDINARIO
# REMATE
# 100
## Preciosos Lotes
DE
# Terreno

Gran festival, musica, gran embanderamiento, carne con cuero, galletitas, vinos finos, cerveza y todo lo que se pida y sea necesario para la fraternidad universal.

Señores ricos, pobres, especuladores y pichincheros, mucho ojo, 100 lotes de terreno en el paraje mas bonito de la ciudad, en una altura donde se respira el aire mas puro y desde la que se disfruta del mas bello panorama que existe en la Atena del Plata. Qui si che gli italiani si ricomberano della sua bella Italia. Quelli que comprerranno lotes in questo punto crederanno di vivire nel loro paese.

## El Dia 4 de Octubre
A las 3 en punto de la tarde

Comenzare a venta a la mas alta oferta sin retirar lote de estas magnificos terrenos situados entre las Calles Boedo, Masa, Soria, 88 B y 88 C; al Sud-oeste de la ciudad, comienzan a dos cuadras de la gran Calle La Rioja que tiene empedrado y tramway, estan lindando con la quinta del Señor Don Juan Aldao.

Sepan que hay orden terminante de vender sin base y forzosamente se liquidaran los 100 lotes por lo que den y sepan que el que pega primero pega dos veces: son terrenos virjenes, despues del primer remate cuanto haya poblacion valen el doble Con que asi no alegar ignorancia, ahi les ofrezco el gran negocio del año 1885.

NOTA—Para ver los terrenos vayan por la Calle La Rioja hasta Garay y frente al puente del Ferro Carril encontraran los carteles del rematador que los guiara. Recomiendo puntualidad. Por planos y mas pormenores ocurrir al rematador.

## NOTICE
Unless previously sold by private contract At Lloyd's Captains' Rooms, Royal Exchange London, on Wednesday, October 7th 1885, at 2.30 p.m.

Four iron Barges,

Built specially for the River Plate trade by Messrs H S Edwards and Sons, Howden-on-Tyne, and now lying in their yard erected and marked, and ready for shipment in sections. Dimensions, 120 by 25 by 8.6 feet. Will carry 400 tons on 7 feet mean draft. These vessels have been built under a most complete specification to ensure great strength; outfit exceptionally good: they have iron decks, are ceiled throughout with whitewood, have accommodation for six men, all necessary warps, anchors, chains, winches, cabin, and cooking requisites; they have also two massive derricks, complete with lifting gear, capable of lifting three tons each. Duplicates of these Barges can be seen in San Nicolas by applying to

## NOTICE
In the High Court of Justice of England, Chancery Division (Mr Justice Chitty.) In the Matter of the Companies Acts, 1867 and 1877, and in the Matter of the LONDON and PROVINCIAL FIRE INSURANCE COMPANY (Limited.) Notice is hereby given, that a PETITION presented to the High Court of Justice, Chancery Division, on the 2nd day of June, 1885, for confirming a special resolution reducing the capital of the above-mentioned company from £1,000,000 to £900,000, is directed to be heard before his lordship, Mr Justice Chitty, on the 16th day of May, 1886. Any creditor or shareholder of the company desiring to oppose the making of an order for the reduction of the capital of the said company, under the above Acts, should appear at the time of hearing by himself or his counsel for that purpose. A copy of the petition will be furnished to any creditor or shareholder of the company requiring the same by the undersigned solicitors, on payment of the regulated charge for the same.

Dated this 10th day of August, 1885.

# BORWICK'S
## BAKING POWDER
Invaluable at the Diggings and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."

Four Gold Medals awarded. Manufactory:—G. BORWICK & SONS, Chiswell Street, London.

Used by thousands for making wholesome Bread, Cakes, Flour Puddings, &c. Sold in 2d. 4d. 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers

DINNEFORD'S FLUID MAGNESIA
# MAGNESIA
Sold by all Druggists and Storekeepers.
N.B. ASK FOR DINNEFORD'S MAGNESIA.

## Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodvue
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer
J. T. Davenport

!! SHEARING SEASON 1885 !!
For cuts in shearing and to prevent the fly from striking those parts, the Especifico de Glycerina is the best remedy. Mode of using: one part of the Dip with five parts of water. Apply with a brush or sponge.
In Drums of 20 and 50 lbs. each.
Apply to your Agent for a drum at once or
MOORE AND TUDOR
Calle MAIPU 95, Buenos Ayres
IMPORTERS
Just arriving a large quantity of Casks of the celebrated Dip, direct from the manufactory, at a great reduction in price, on account of the less labor and expense it costs to put it up in this manner.
N.B.—Any estanciero wishing to test the efficacy of this Dip for Scab etc. C. P. Hayward will be pleased to show the single process with the Especifico de Glycerina, upon the sheep being supplied.
Plans of Hayward's Patent Sheep-Baths as erected in Australia and New Zealand, also Patent Cattle Bretes for marking, caparing, and dipping for Garrapata combined $5 each.

| Nat. Bank Scrip | 110 |

The heavy shipment of gold by the R.M.S. Elbe is the great topic of the market, and the influence of this efflux of specie is felt in the firm and rising tenor of the speculation. Some satisfaction may be derived from the fact that the shipment means so much money paid off; there is also a grain of comfort in the consideration that the country has the gold to send forward. But the moral effect of this heavy shipment is very visible in the firm quotation of the gold premium. The gold market hangs on the rate of exchange, and if the negotiation of the loan and the return of the busy season fail to push the rate above 47d, all are convinced that a very tight state of affairs will ensue in November and December.

The market is growing very susceptible, and the extraordinary speeches made in Congress of late are not of a nature to inspire much confidence in the future. It is always well to bear in mind that little credit can be given to statements that often escape the speakers in the heat of discussion, and that it would be a great mistake to attach too much importance to the pessimist view of some of the Deputies who are, perhaps, not quite aware that their speeches from the benches of Congress carry some weight. In the excitement of debates, some members of Congress make assertions that stagger the market. One of the most influential Deputies in Congress levelled a tremendous attack against the National Bank last night, and the whole market was talking of the matter to-day. Another statement, that called forth much remark, was the assertion that the Government's obligations this month amounted to five millions dollars and that the Treasury was empty.

The broad deduction drawn from these financial statements in Congress is that the Government is in such straitened circumstances that the loan must be done and that the increased paper emission must be granted to the National and Provincial Banks. The gold markets, meantime, has to weigh the effect of these measures; the success of the loan must necessarily put down the premium, but the increase in the issue of paper will counteract the effect of the loan, and it remains to be seen which current is stronger. The bulls believe in paper and high premium; the bears, in the loan, and a lower premium. The state of the gold market at present is one of stationary firmness, and more likely to follow the bulls than the bears. How long it will continue so, is the speculative problem.

The Provincial Bank resumed its exchange operations to-day, and, as we anticipated, at last week's rates. This exchange rate fixes the gold premium at 38½, and this will, no doubt, steady the market. If the Bank draws with the same liberality as last week, a bearish feeling will become perceptible in the gold market. The remarkable feature about these exchange transactions is, that the Bank is supposed to be drawing because it is running short of paper, and the Board want a large paper reserve to meet the demands of the busy season. This scarcity of paper in the State Banks, in spite of the restriction of discounts, is one of the anomalies of the situation.

Fifty thousand gold dollars changed hands this morning at the ring for cash; the market opened at 38.50, and closed in advance and firm at 38.70. Fifty five thousand were sold for to-morrow at 38.50 to 38 80. About one hundred thousand were sold for the 10th and 15th at more or less the same rates as above. Close on four hundred thousand dollars were sold for the end of the month: the market opened at 38.50, fell to 38.30, and closed in demand at 38.60. Operations for the end of next month embraced $140,000. Operations opened at 38, fell to 37.80, and closed at the opening rate. Operations during official hours amounted to seven hundred thousand dollars. The situation opened firm, weakened slightly for the end of the month, but closed hard, and in advance of opening rates.

Cedulas ruled firmer to-day. Operations embraced a few thousand A at 101, E at 81½ and F at 81 for cash. About fifty thousand G changed hands at 87½-¾. Fifty-five thousand were sold for the 20th and 30th at 87.

There was a slight revival in Nat. Bank Stock. A few hundred Certificates were sold for the 30th at 110 and 111. Two hundred shares were sold for the end of the month at 147¾. The Board of the Bank, it is expected, will declare the half-yearly dividend immediately after the vote of Congress on the Forced Currency Bill. This bill grants the National Bank an increase of 12 millions in the issue of notes, and allows the Board to distribute full dividends. A clause will be probably added to the bill, authorizing the Provincial Bank to issue four and a-half millions more paper. The notes of this new issue will be stamped with the seal of the nation.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—
For cash 48,000 at 138.50-70
For Oct. 3rd 55,000 at 138.50-60-70-80
For Oct. 10th 34,000 at 138.40-50
For Oct. 15th 53,000 at 138.50-40-50
For Oct. 31st 360,000 at 138.50-40-30-50-60
For Nov. 30th 140,000 at 138-137.80-138
Sales, 690,000

For Oct. 31st G 35,000 at 87
Sales, 134,900
National Bank Shares—
For Oct. 31st 300 at 147½
National Bank Certificates, 70 o/o paid—
For Oct. 31st 150 at $111-110

The R.M.S. Neva left Rio de Janeiro yesterday at 4 p.m. for the Plate. Mr Edward Madero, concessionaire of the Buenos Ayres port, is amongst the passengers on board.

Farmers state that if the present fine weather continues the export of linseed this season will reach fabulous quantities. Accounts from Santa Fé and this province state that the plantations are in splendid condition, and that farmers will coin money if exporters continue paying 64 to 66 cents per arr. of seed on board. These are pleasant prospects. Wheat and linseed may pull the country round next year.

The fire in Rosario yesterday was the greatest blaze ever seen in that flourishing town. Messrs Sagasti & Co.'s store was completely destroyed. The losses are calculated at 150,000 $m/n; all insured. Three firemen were injured.

The following business was reported in the gold market this evening:—
100,000 for cash and to-morrow at 38.90 to 39.20.
200,000 for the 30th at 38.70 to 39
60,000 for November at 38½.
The market closed at 39, buyers for cash and to-morrow, and sellers for the end of the month. The market was firm during afternoon hours.

Fifteen thousand sovereigns were sold to-day at ½ o/o premium.

The Orenoque, Cuvier and Petropolis entered port to-day.

The lots of wool of the new clip sent into the markets are six in number: of these, one small lot of 80 arrobes was sold at 83 ⅝ per arr.; three lots have been sent to deposit, and two only remain in the market. It is, indeed, a sign of the times to see the first samples of the new clip go to deposit. This shows the apathy and paralysed condition of the wool market. Eighty arrobes of wool are the beggarly sum total of this week's wool market.

Small amounts of exchange were passed to-day at 46¼. Drawers ask 46⅜, but there are no takers at the rate.

Five hundred Certificates of the National Bank were sold this afternoon at 110 and 111 for the end of the month; also 200 paid-up Shares at 148.

We note in a Lincoinshire paper (*Lincoln Gazette*,) that 971 fleeces of the Lincoln wool weighed 458½ tods 13,053lbs averaging over 13½ lbs each fleece, which shows the wool-growing capacity of this class of sheep. Surely some of our estancieros can do likewise.

The returns of the Montevidean Custom House for last month amounted to $642,000.

At the Plaza Once the following business reported:—
77 waggons with produce arrived.
The arrivals were:—
160 @ of new wool
2,910 doz. sheepskins
3,600 doz. corderitos
850 cow hides
125 potro hides
248 @ hair
37 casks tallow
3,320 bags wheat
1,840 bags maize
423 bales hay
and other produce.
Sheepskins, cow hides and hay weak; and maize and wheat a little flat.
No variation in prices of other produce in general.
The sales were—
Wool—
No sales.
Cow Hides—
560 camp at 208, 205, 195
150 matadero, 195, 185
Sheepskins—
Per doz. at 23½, 23, 22½, 20, 19, 15, 13½, 12 and 10 rls. ℔
Matadero, 23½
Total, 2,650 doz.
Corderos, 210 doz. at 18, 17, 14 rls.
Corderitos, 150 doz. at $21
Horse Hides—50 at 65
Hair—20 @ at 177
Tallow—15 bordalesas at 45
Wheat—Per fan., candeal, 110, inf. 68
Wheat—Per fan., Costa, 115
Total, 3,450 fanegas.
Maize—Per fanega morocho in grain at 48, 46, 42, 40, 34, 33 and 30
Maize—Per fan. yellow in grain at 46, 46
Total, 1,420 fanegas.
Turnip—300 (@ at 12½
Linseed—800 @ at 14½, 12½
Hay—50 bales at $13, 12 m/n per ton.
At the South Market the following business done:—
43 waggons with produce arrived.
The arrivals were:—
3,897 doz. sheepskins
1,028 lios corderitos
2,138 cow hides
236 becerros
108 nonatos
153 potro hides
358 @ hair
15 casks tallow
500 lb. nutria
250 lb ostrich feathers
120 doz. deerskins
155 bags of wheat
120 bags maize
and many other produce.
Market continues without variation.
The sales were:—
Cow Hides—
2,680 camp at 210-205, 200
200 matadero, 185
Sheepskins—
Per doz. sup. at 27-20, 19-10 rls.
Matadero, 24
Total, 5,150 doz.
Corderos, 200 doz. at 18 rls.
Corderitos, 4,950 doz., $24½-20
Horse Hides—177 at 73, 72, 70
Potrancas at 30
Hair—390 @ at 180, 178, 175
Deerskins—100 doz. at 58
Tallow—100 @ camp at reserved price.

Dr. L. F. Fuentes has sold his large quinta property, corner of Calles Callao and Juncal, for four million paper dollars of the old money. Buyer, Colonel F. B. Bosch.

The returns of the Custom House yesterday amounted to $57,065 m/n.

The formation of a new company is spoken of in this market, the capital to be employed in a distillery. The shares of the company are being offered for subscription.

Another distillery company is spoken of; capital subscribed in Europe and to be invested in a distillery on the banks of the Parana, in this Province.

The following sales of real estate were registered yesterday:—
Rivadavia 390 and 398, 18.10x30.75 mts., 80,500 m/n.
Alsina 703, 11.51x57.59 mts., 35,000 m/n.
Independencia 261, 17.25x28.70 mts., for 10,350 m/n.
Chile 1080, 6.66x25.98 mts., 3,500 m/n.
Peru 745, 15.15x60.62 mts., 24,700 m/n.
Three properties in Calle Peña, between Talcahuano and Larga de la Recoleta, 43.30 by 30.31 mts., 55,000 m/n. Callao 472 and 476 and Charcas 773 and 785, 31.17x34.64 mts., 90,000 m/n.

Messrs. Green & Johnson, the well-known shipbrokers, give the following in their important shipping circular of the fortnight:—
Principal exports since 15th to 30th September, 1885:—
16,858 salted ox and cow hides
2,066 salted horse hides
66,493 dry ox and cow hides
798 dry horse hides
1,577 pipes tallow
210 bales hair
34 bales wool
3,375 bales sheepskins
81,766 bags maize
1,835 bags wheat
2,292 bags flour
341 bags linseed
General Remarks—
Steamers—
The situation of our market remains the same as stated in our previous issue, and we quote rates for maize at 15 francs here and 20 francs in the river Parana per 1,000 kilos for continental ports.
Sailing vessels—
The demand is now very limited and only a couple of vessels have been chartered to load maize in the Boca at 18 francs in full per 1,000 kilos to Channel f.o.

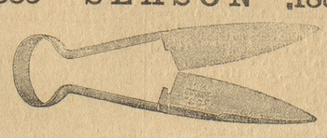
1885 SEASON 1885


SHEARS IN STOCK

| | |
|---|---|
| Ordinary Nos. 100 & 125 | 5½ & 7 Inch Blades |
| Equalizing Spring Nos. 100 & 125 | 5½ & 7 " " |
| Double Bow No. 200 | 5½ 6 & 7 " " |
| Special Nos. 26 & 27 | 5½ " " |

The superiority of these Shears over those of any other make is fully borne out by the numerous testimonials in possession of the undersigned; such as the following:—
Sr Don F. G. Walker,
Estancia "Sauce Chico,"
Bahia Blanca, Febrero 23, de 1885
"En contestacion a la pregunta de Vds debo decir que cuando mande pedir Tijeras Chicas No 26 y 27 de Ward y Payne segun las muestras que Vds me remitieron, Vds me contestaron que estas ya se les habian concluido. Hubiera deseado tener mas de ellas pues tenian aqui mucha aceptacion. Las Tijeras que hemos empleado en este Establecimiento este año han sido los Nos 100 y 125 de Ward y Payne marca Bigornia."
